

INVESTOR READY BUSINESS PLANS

FROM HUDSON OUTSOURCING

Are you an investor ready business?

The purpose of an investor ready business plan is to inform a venture capitalist or angel investor who you are, what you do, what you want to achieve and how you're going to do it. It also clearly states what they'll get in return.

Being too close to the subject matter, sometimes makes the message unclear and reduces the impact of the core messages you're trying to get across. At Hudson we take a detached approach to perfectly formulating a winning plan that will deliver results.

At Hudson, we can see your plan through the eyes of an investor. Putting ourselves in the mind of the investor allows us to take an objective look, to see, if what you're promising is realistic and ambitious but at the same time excites curiosity, for the reader to find out more.

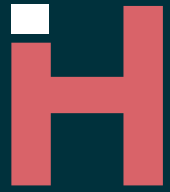

Hudson Business Plans lay the foundations to ensure critical messages are portrayed effectively, whilst ensuring the investor is excited by what they read and sees the potential for making a good return on the funds they part with. Hudson's writers, consultants and designers will ensure you have a compelling and complete story that is easy to read and visual, utilising your brand, and ensuring you put your best foot forward. It's essential that the plan written can be easily read and understood by the investors digesting your plan.
